Web Servers & Platforms: IIS (7.0, 8.0), Azure Kubernetes Clusters
Tools: Photoshop 7.0, POSTMAN, Just Decompile (Telerik)

ACADEMIA

Exam	Board or University	Year of Passing	Result
B.E.EC	Gujarat Technological University	May 2012	7.31 CGPA
HSC	Gujarat State Board	March 2008	76%

Experience

Capgemini India, [Gandhinagar- Gujarat]

Senior Consultant
August 2022 – Present
- Led a team of 7-8 members, overseeing sprint planning, story allocation, and retrospectives.
- Facilitated architectural discussions and refinements with the Product Owner to meet project goals.
- Implemented and managed various technologies including Angular, .NET Core, and Azure Kubernetes.
- Collaborated with cross-functional teams to develop and implement a new process that increased productivity.
- Developed and maintained relationships with key stakeholders that resulted in improved customer service.

Priya Softweb Solutions Pvt. Ltd , [Ahmedabad- Gujarat]

Senior Technical Analyst
July 2019 – August 2022
- Developed full-stack web applications using ASP.NET Core, Angular, and SQL Server.
- Integrated third-party APIs and implemented authentication mechanisms (JWT, IdentityServer).
- Optimized database queries and stored procedures to improve system performance and scalability.
- Mentored junior developers and conducted technical training sessions.
- Troubleshot technical issues and provided on-site technical support.
- Provided technical support for end-users and resolved escalated technical issues.

NINtec Systems Limited [Ahmedabad- Gujarat]

Senior Software Engineer
September 2018 – June 2019
- Designed and developed .NET-based applications and services.
- Improved application performance by implementing caching strategies and query optimizations.
- Contributed to the development of multi-tenant applications with role-based access control (RBAC).
- Conducted unit testing and integration testing to ensure software quality.
- Debugged software, identified root causes, and proposed solutions to software issues.

Samarpan Infotech [Ahmedabad- Gujarat]

Software Developer
November 2016 – September 2018
- Developed and maintained ASP.NET MVC applications with SQL Server and JavaScript frameworks.
- Contributed to the development of software solutions using .NET technologies.
- Participated in the full software development lifecycle from requirement gathering to deployment.

Project Experience

Project : Reveos, Kinari, Rika, Fleet Inventory, Software Update, Lumia

Role: Full Stack Developer

Client: TerumoBCT (Terumo Blood and Cell Technologies – U.S.)

Technologies: .NET Core, Microservices, Azure Kubernetes, Minio, RabbitMQ, Angular 13, NServiceBus

Database: PostgreSQL, MS SQL Server

Tools: GitHub, TypeScript, TS-Lint, MQTT Broker, Jira Cloud

Description: Developed a platform for managing over 20,000 blood and cell technology devices using microservices and Azure Kubernetes.

Responsibilities: Led a team of 7+, managed end-to-end development, conducted unit testing, and handled Agile delivery and architectural planning.

Project : Ascale & Atune

Role: Full Stack Developer

Client: Avnet

Technologies: .NET Core (6.0), Angular 13, MSSQL Server, Azure Service Bus MVC, Entity Framework, Web API, Bootstrap, jQuery, JavaScript, HTML5, CSS3, AJAX

Description: Developed a dynamic platform designed to showcase innovative products and services globally. The solution enhances user engagement by providing a seamless, responsive experience across multiple devices. It aims to optimize interactions and improve the overall user experience by integrating key features to support real-time data exchange and efficient communication.

Responsibilities: Integrated themes, conducted research and development, and handled end-to-end module coding.

Project : Louwman Dealer Group – Leading Automotive Retailer in the Netherlands

Role: Sr. Software Developer

Client: https://www.louwmangroup.com/

Technologies: .Net MVC, C#, SQL Server, Bootstrap, jQuery, JavaScript, HTML5, CSS3, AJAX

Description: Developed dynamic, responsive user interfaces using MVC architecture and Bootstrap, improving user experience across devices. Integrated RESTful APIs to fetch real-time vehicle information, enabling users to instantly compare and select models. Optimized application performance, reducing load times, and collaborated with backend teams to implement data encryption and secure user authentication.

Responsibilities: Gathered requirements, performed end-to-end coding, and production support.

PERSONAL DETAILS

Name	: Darshankumar Hitendrakumar Patel.
Gender	: Male
Date of Birth	: 06 Sep. 1990
Address	: 303, Shree Home, Gota-Ahmedabad, Gujarat - 382481
Nationality	: Indian
Languages known	: English, Gujarati, Hindi
Hobbies	: Music, Cricket, Watching News, Technology

Declaration

I hereby declare that all the particulars furnished above are true to the best of my knowledge.

Place: Ahmedabad   DARSHAN PATEL
